

X BASE

Replacement base xxxxxx

Instructions

Depending on the age of your clutch, it could have one of three types of cam stop. Identify the type from the illustrations and replace the existing base as described.

Note: Take care when dismantling the clutch to observe the positions of components for re-assembly.

TYPE 1. XT, XC and XR only.

Short spirol pin protruding from side of base.

Remove pin from existing base and press into hole in new base, leaving 3mm protruding.

TYPE 2. XT, XC, XR only.

Solid through-pin extending on both sides of base (or bases on multiples). Remove pin from existing base and assemble through new base in the same way.

TYPE 3. XTS and XCS only.

Plastic cam stop.

Remove plastic moulding from existing base and fit to the new base in the same way.
