

BY ZIM SAILING

ZIM OPTIMIST

Zim is pleased to be one of the few Optimist manufactures to produce one highest quality durable hull. Other companies build 2-3 different hulls with varying quality. In addition, our spar and blade packages are the best available to provide the highest quality and are very user friendly. We specialize in fleet replacement and provide excellent pricing for new fleets. The Zim Race Optimist has won several local, regional and National championships. The Zim Optimist has also been chosen to be the charter boat used at several IODA international events.

CONSTRUCTION

- IODA approved and measured hull
- Your choice of colors available on aft sides and transom; black, red, light blue, dark blue, orange, grey or white
- Biaxial cloth hull provides optimum strength characteristics
